Metropolitan State University President's Welcome

Dear MCAA Conference attendees:

On behalf of the faculty, students, and staff of Metropolitan State University, welcome to our campus! We are honored to host the 67th Midwest Conference on Asian Affairs.

It is exciting to hear about the rich array of session topics that colleagues are bringing to the conference sessions. Our thanks to the institutions that have collaborated to make the conference arrangements come together successfully. We are proud of our student, Emily Flynn, who provided the conference image, "Koi Pond."

Our university feels a strong connection to the Asian community. Last year we met the threshold for classification as an Asian American and Native American Pacific Islander serving institution. Many of our students are from Southeast Asia. We are also fortunate to welcome students from Nagasaki University in Japan, as well as Takming University, and Chinese University of Technology and Engineering, both in Taiwan. We look forward to the public outreach events you have scheduled for Oct. 20, which will engage the strong community interest here in Asian studies and culture.

Thank you for bringing your memorable conference to our campus, and my best wishes for a rewarding time together.

Sincerely,

Virginia Arthur

The Midwest Conference on Asian Affairs began operations at the University of Oklahoma in Norman during Thanksgiving vacation of 1952 as the Far Eastern Affairs Conference. A decade later, in 1962, it was renamed the Midwest Conference on Asian Affairs (MCAA) and came formally under the wing of the Association for Asian Studies in 1967.

About Metropolitan State University

Metropolitan State has always been a pioneer in education for post-traditional students: adult learners who frequently have full-time jobs, transfer students, those transitioning into new careers, and students supporting families.

While other institutions are just recognizing this population, Metropolitan State has been there from the beginning, with credit for life/work experiences, flexible scheduling, online and hybrid class options, and our popular individualized degree programs.

Our students reflect the communities we serve, and our graduates bring their skills and knowledge home, serving the needs of their own communities.

Saturday, Oct. 20

MCAA Film Screenings

9:45–11:15 a.m. and 11:30 a.m.–12:45 p.m. – Two showings (Auditorium)

(free and open to the public)

Exposure to Radiation: Post X-Years (2012, 55 min. with English subtitles),
by Hideaki Itō, Nankai Broadcasting Corporation

[*Exposure to Radiation Post X-Years Flyer.pdf*](#)

Synopsis:

In 1954, the United States conducted six hydrogen bomb tests in the central Pacific between March and May. As a result, contaminated tunas were discarded in Japan and Japanese fishermen became ill.

By December, however, in exchange for two million dollars from the U.S., all the fish were allowed back into the market and most sick crewmen were forgotten.

Cesium, easily broken bones, classified documents, the Cold War ...

Exposure to Radiation: Post X-Years shows heretofore rarely seen realities of many irradiated fishermen.

Nuclear Asia: Prospects for Peace

2–3:30 p.m. – Film Screening and Discussion with Directors (Student Center Rm. 101)

(free and open to the public)

Human Error (2018, 60 min.), by Yoh Kawano on Namie, a small town near the Fukushima Daiichi Nuclear Reactor

[Kawano Yoh Human Error Press Kit E+J.pdf](#)

Synopsis:

The Japanese government claims that “everything is under control” in Fukushima. But is it? Seven years has passed since the morning of March 12, 2011, when the decision to evacuate more than 150,000 residents was made due to the nuclear explosion. This film follows a group of people whose lives have forever been disrupted by the disaster: a nuclear power plant executive, a priest, a travel inn owner, a farmer, the mayor of a local town, and an 86 year old evacuee. As villages inside the evacuation zone prepare for its reopening, successful resurrection depends on the return of their citizens and the perception that spaces are once again safe for everyday human life.

Under the Mushroom Cloud (*work in progress, preview, 5 min.*), by Kyle Whitney on Hiroshima and Nagasaki

[KyleWhitneySynopsis2PDF.pdf](#)

Synopsis:

Under The Mushroom Cloud brings to life the true stories of the survivors of the atomic bombs in Nagasaki and Hiroshima, explores the lasting effects of nuclear war and hears the powerful messages of peace they want to share with the world today.

Dr. Irene Khin Khin Jensen

Recipient of the Jackson and Caroline Bailey Public Service Award, 2018

Dr. Khin Khin Jensen was born and educated in Burma and received her MA in History from Bucknell University and her PhD in History from the University of Wisconsin-Madison in 1956. In 1959 she joined the history faculty at Augsburg University and retired from it as Professor Emeritus in 1994. Her exemplary work laid the foundation of Asian Studies in the Greater Twin Cities and contributed to a wider acceptance of Asian Americans and women as faculty in academia. The remarkable details of her career have been captured in “Honoring a Pioneer Woman Asian

Historian in the Twin Cities,” a memoir written by Dr. Maythee Jensen Kantar with the editorial and layout assistance by Drs. Jeanne Grant and Anne Aronson, is available online in the *Middle Ground Journal*. (middlegroundjournal.com)

Scholarly Publication in the Future: Responding to the Digital Age

Our theme this year will be scholarly publication in the changing world of information technology, seeking to offer advice for negotiating ways to make scholarly work available to readers in a timely manner.

A few years ago, a seemingly general or online journal might have been viewed as a less important venue for one's research than the first-rank scholarly journals such as *Journal of Asian Studies*. Now, other journals have grown, often from informal platforms, into more rigorous journals. With the growth of available scholarly outlets, it is worth asking whether usage statistics indicate that online essays are widely read, and whether online publication presents a viable alternative to print.

Our panelists will present their perspectives on the changing field of scholarly publishing over the next decade, discussing how to respond to this unrelenting pressure to publish—in the digital age of today and the foreseeable future.

“Revisiting the Chinese World Order: Soft Power or the Imperialism of Nation-States”

Keynote Address Synopsis:

There are unexpected convergences between the imperial Chinese order and the emergent global order. Forms of global domination have evolved since the end of the nineteenth century from modern imperialism into what might be termed “the imperialism of nation-states.” Despite continued use of force, post-Cold War geopolitical dominance is ever more shaped by the pull of “soft power,” suggesting a changing balance between expressions of violent power and other modes of domination, opening to examination the extent to which this notion—popular in the Chinese media—has any purchase in understanding the rise of China.
